# Quality Forward

To hear is to know, to touch is to understand. When you touch Sugatsune's products, you can understand the quality our company exhibits. That quality is shown in our exceptional customer support, meticulous detail in product development, prompt service with adequate inventory, and helpful distributors in your area to service you.

## Customer Service

For over 30 years we have provided North America with outstanding and quality customer support; our customer service team has extensive product knowledge so we can assist our customers with timely and clear information. We ensure not only will our products be of high quality, but that you will be completely satisfied with our customer service team. We believe that you cannot have great products without great customer service.

## Product Development

Our company dedicates a large staff for research and development of new and innovative products, making us the first in product development. We determine each product by functionality and convenience, making us able to set the market trends; however, we also encourage new designs suggested by the consumers. Each new product is tested and rated for exceptional durability and quality, assuring that you will get the finest finished product.

Sales Channel

## Inventory

Quality service requires fast processing and shipping lead times. Our purchasing ensures that each stock item is kept to the maximum quantity and our customer service team will work with you on special order items. With over 5,000 items stocked, our facility has the capacity to service the demands of our customers in North America.

## Sales Channel

Our customers deserve fast and adequate service so our extensive distributor network is prepared to assist you with Sugatsune products. Our distributors have been evaluated to be the best so you can establish a relationship, receive excellent service, and receive fair pricing. Locate your distributor on our website or call us.
